

## 4921IWT - Coated Polyester for Industrial Applications

### Description

- White Coated Fabric
- Coated Polyester for Industrial Applications for Thermal Transfer, Hot Stamp, Wet Ink Printing

### Recommended ink

- HS9111
- HS1111

### Printer compatibility

- Avery Dennison Snap Series
- Avery Dennison 6x6

### Features

- Premium white coated polyester for denim and overdye applications
- Double sided product for two-side printing; reduces label size and therefore cuts material costs
- For thermal transfer printing; ultimate processing flexibility and fast data changes
- Best results are obtained with HS9111

### Applications/Market

### Notes

4921IWT  
Coated Polyester for  
Industrial  
Applications

## 4921IWT: Technical Information

PRODUCT							
Product reference	4921IWT						
Product type	Coated Fabric						
Raw material	100% Polyester with Polyurethane Coating						
Colour	White						
Product Status	New Development						
PROPERTIES							
Print technology	Thermal Transfer, Hot Stamp, Wet Ink						
Front/Back print	Front/Back						
Product properties	Hand			Opacity			
	■■■■□□			■■■■■			
PROCESSING/COMPATIBILITY							
Performance: the recommended combinations are based on Avery Dennison's results and experience. It is essential that all fabrics and inks are thoroughly tested prior to use through your specific processes.
