

## LOOP Series Fasteners

LoopSeries™ fasteners create a loop connecting the product with the label. LoopSeries™ fasteners are used for tagging and connecting products, which dimension or shape requires application of a loop.

LoopSeries™ fasteners are used for aesthetic purposes in order to distinguish a product or a brand. LoopSeries™ fasteners are made of plastics and natural materials.

Installation of the LoopSeries™ fastener is done by locking up the two ends of the fastener in the specific place. This operation, depending on the type of a LoopSeries™ fastener, can be done manually or by the use of tagging guns.

 Fasteners intended for manual installation:

**LoopSeal Pyramide™** - the head in the shape of the cone.

**LoopSeal Barrel™** - the head in the shape of the cylinder, or literally a barrel.

**BeadSecure™** - with the adjustable beading loop.

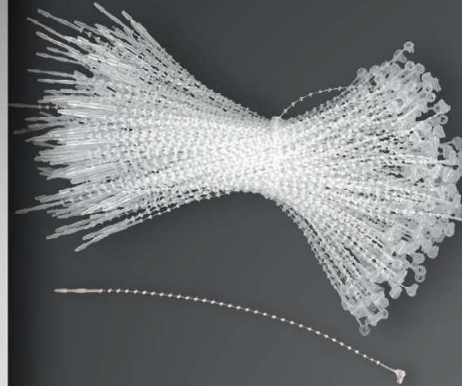

**CordSeal™** - made of cord

 Fasteners intended for installation by the use of tagging guns:

**V-Loop™** - made of polypropylene and installed by the V-TOOL tagging gun

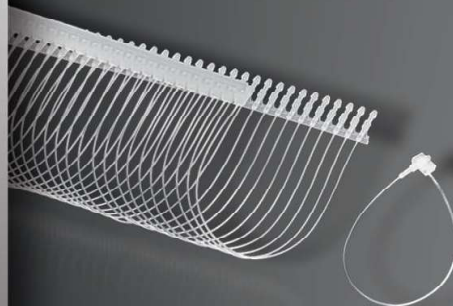

**LoopSeal™  
Pyramide**

**BeadSecure™**

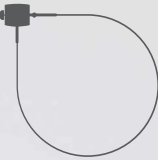

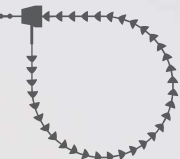

**CordSeal™**

**V-Loop™**

Shape	Type	Material	Index	Size [mm]	Qty per clip [pcs]	Qty per box [pcs]
	<b>LoopSeal™ Pyramide</b> 	Polipropylene	SLLPPP00076X	76	--	5 000
			SLLPPP00130X	130		
			SLLPPP00180X	180		
			SLLPPP00230X	230		
			SLLPPP00280X	280		
	<b>LoopSeal™ Barrel</b> 	Polipropylene	SLLBPP00076X	76	--	5 000
			SLLBPP00130X	130		
			SLLBPP00180X	180		
			SLLBPP00230X	230		
			SLLBPP00280X	280		
	<b>BeadSecure™</b> 	Polipropylene	SLLSPP00076X	76	--	5 000
			SLLSPP00130X	130		
			SLLSPP00180X	180		
			SLLSPP00230X	230		
	<b>CordSeal™</b> 	Polyester cord	SLCSTE00080X	80	--	5 000
			SLCSTE00130X	130		
	<b>V-Loop™</b> 	Polipropylene	SLVLPP00076X	76	50	5 000
			SLVLPP00100X	100		
			SLVLPP00130X	130		

LOOP Series  
**V-TOOL tagging guns**

Very light and comfortable in use. Applied for high-efficiency tagging the products with LoopSeries™ fasteners.

V-TOOL tagging gun is used for installing of **V-Loop™** fasteners.
